

APICS Certified Supply Chain Professional (CSCP)

Instructor Led Course

Achieve Competitive Success with the APICS CSCP Program

The APICS CSCP (Certified Supply Chain Professional) program is the most widely recognized educational program designed for operations and supply chain management professionals.

The Down East Chapter of APICS The Association for Operations Management is offering the APICS CSCP Preparation Course. This course will expand your supply chain knowledge and prepare you for the APICS Certified Supply Chain Professional certification exam.

Course Components

As part of the tuition for this course, you will receive the APICS CSCP Learning System — a certification exam preparation tool developed by APICS.

This comprehensive training program combines print materials with interactive Web-based study tools to provide a customized learning experience.

Print Materials

Three print modules with approximately 1,000 pages of content covering:

- 1 Fundamentals of Supply Chain Management
- 2 Supply Chain Strategy, Design, and Compliance
- 3 Implementation and Operations

Interactive Web-based Study Tools

- **Pretest** to determine knowledge level and prepare a study plan
- **Section-specific tests** offer immediate feedback
- Test bank of more than **900 questions**
- A timed **post-test** to determine progress
- **E-Flashcards** to test knowledge of relevant industry terms
- A Web-based **glossary**
- Access to the **Resource Center** offering test-taking tips, feedback feature, and links to valuable resources
- Complimentary download of the most current **APICS CSCP Exam Content Manual** through the Resource Center
